SUMMARY

Innovative Data Analyst with a talent for analyzing complex datasets and generating actionable insights. Adept at spearheading data-driven projects, optimizing processes, and presenting findings. Proven ability to collaborate with teams, negotiate data requirements, and guide strategic decisions. Committed to surpassing goals and enhancing business performance.

EXPERIENCE

Data Analysis Intern , Cognifyz Technologies   **April 2024 - May 2024**

- Conducted exploratory data analysis (EDA) and data visualization tasks. Streamlined project
- Demonstrated exceptional dedication, sincerity, and a strong desire to learn.
- Exhibited effective communication abilities and remarkable attention to detail.
- Conveyed insights through clear visualizations and presentations.

ACADEMIC – DATA ANALYTICS PROJECTS

Terro's Real Estate Agency

- Analyzed data to estimate the cost of land in a particular region using Excel.
- Spearheaded data cleaning, exploratory analysis, and regression to predict features/variables.
- Achieved insights through regression analysis.
- Tools Used: Excel (Pivot Tables, Charts, Data Analysis Tool Pack).

YouTube Dataset Analysis Project

- Analyzed YouTube dislike dataset to gain useful insights.
- Spearheaded data cleaning and exploratory data analysis (EDA) using Python.
- Presented actionable insights through clear and concise visualizations.
- Tools Used: Python libraries - NumPy, Pandas, Seaborn, Matplotlib

Travego Travellers

- Designed and optimized a relational schema with indexing and foreign key constraints
- Used queries for analyzing passenger data, extracting insights on demographics, distances, and prices.
- Implemented tasks for insertion, updates, and deletions to ensure accuracy
- Tools Used: MySQL , Queries

Car Insurance Analysis

- Developed intuitive and interactive Tableau dashboards for easy data exploration.
- Created visually compelling charts and graphs to communicate complex insurance data effectively.
- Simplified understanding of trends, patterns, and correlations within the data.
- Tools Used: Tableau (Custom Measures, Visualizations bars, charts, pie charts, and graphs etc)

EDUCATION

Master of Business Administration   **2023 – present**
Bhabha University, Bhopal

Data Analytics Program   **2023 – 2024**
Great Learning

Bachelor's degree in Commerce | Grade: 77.50%   **2019 – 2022**
Jawahar Lal Nehru college, Bhopal

SKILLS & CERTIFICATIONS

- **Technical Skills:** Power BI, SQL, Python (NumPy, Pandas, Seaborn, Matplotlib), Tableau, Excel (Pivot Tables, Charts, Data Analysis Tool Pack), MySQL, Google Sheets
- **Certifications:** Data Analytics Program - Great Learning, Data Analysis Intern - Cognifyz Technologies, Python for Data Analysis - Great Learning, Excel for Intermediate Level - Great Learning , Linear Regression - Great Learning
